How Atom Home helps your child prepare

Tell us your target schools

We build a personalised exam prep roadmap for your child, giving them a clear plan for each week.

Your child covers the right content at the right time

With 90,000+ multiple-choice questions, video tutorials, and interactive resources, they'll master every topic tested in their exam.

We target their areas for improvement

Atom's adaptive technology identifies knowledge gaps, ensuring your child gets the right level of challenge. You can track their progress in real time.

They build confidence with realistic practice

School specific mock exams help them master exam techniques, build confidence, and to know exactly what to expect on exam day.

**Partnered with 95 grammar schools and
trusted by over 75,000 families.**
